

/CLASSIC FORD F-250

VELOCITY™

THE VELOCITY DIFFERENCE

Velocity builds modern vehicles that pay homage to the past. Each Velocity vehicle reimagines a classic style complimented by the comfort and reliability we expect from a modern driving experience. The end result- the Velocity Signature Series.

Each step of the build process is completed in-house by our team of expert craftsmen and every Velocity Signature Series vehicle is built with the utmost attention to detail as expected by our team and our clients.

- ▲ Unmatched 16 week production timeline with real-time build updates provided
- ▲ Precision crafted components fabricated in our 135,000 sq. ft. production facility
- ▲ Over 130 trained experts focused on designing, fabricating, and assembling your Signature Series vehicle
- ▲ In-house tuning guarantees each vehicle meets or exceeds performance requirements
- ▲ Innovative research and development team with decades of experience
- ▲ Four downdraft-style professional paint booths provide a lustrous finish and hardened durability
- ▲ Precision crafted parts designed by engineers with a passion for classic vehicles

ICONIC AMERICAN HERITAGE MEETS MODERN DESIGN.

With their sleek design and powerful engines, Velocity-built classic Ford F-250 Trucks are the epitome of automotive excellence. These vehicles have undergone a complete transformation, leaving no stone unturned in the pursuit of perfection.

Whether you choose the Signature Series or the Heritage Edition, you can rest assured that every aspect of these trucks has been carefully crafted to exceed your expectations.

MADE MODERN. KEPT TIMELESS.

MODELS

VELOCITY EXCLUSIVE PREMIUM VINYL - STANDARD

Beautiful, comfortable, and durable vinyl comes standard in each Velocity Signature F-250

WHITE

ARABIAN

WALNUT

HICKORY

BLACK

VELOCITY EXCLUSIVE LEATHER

Rich, flat grain leather for a premium look.

LIVE OAK

SHORELINE

EXTERIOR UPGRADES

VELOCITY CUSTOM FRONT
OVERHEAD CAB LIGHTS
\$4,500

Give your truck the tough appearance it deserves with Velocity's billet cab lights designed in-house.

FULL WET SAND/POLISH
\$7,500

The wet sand and polish is a process that enhances the appearance of the exterior of the F-250. This process eliminates particles that might have been left behind and it smooths the surface to allow for a deep glossy look.

BACKUP CAMERA
\$2,500

Our backup camera includes a rearview mirror with a digital display that is activated when the vehicle is put into reverse. If your vehicle is equipped with a retractable touch screen head unit, the backup camera will display on the screen.

BILLET EXTERIOR APPEARANCE PACKAGE
\$7,500

Give your build the premium touch with classic F-250 parts from Velocity.

INCLUDES

BILLET HOOD BADGE

CAB LIGHTS

TAILGATE HANDLE

DOOR HANDLE

INTERIOR UPGRADES

VENTILATED SEATS \$2,900

Ventilated seats are a great feature to have on a hot summer day. Add even more modern luxury to your F-250 with this option.

**Requires perforated seats*

LEATHER UPGRADE \$4,500

The leather is an upgrade from the premium vinyl. It provides an upgraded fit and finish with a luxurious feel. Take your F-250 to the next level by upgrading to premium leather.

WOVEN LEATHER \$10,000

Premium Woven Leather creates depth and pattern to your build by weaving thin strips of leather together. This unique look truly meshes classic and modern.

Only offered on Heritage Series builds and may increase production time.

HEATED SEATS \$2,200

This feature adds the comfort of heated seats to the front seats of your F-250. Whether you want to warm up on a cool day or relax your back after a long day on the links, the heated seat upgrade is a must-have.

SIRIUS XM SYSTEM \$900

Listen to your favorite stations from Sirius XM.

APPLE CARPLAY/ANDROID AUTO TOUCHSCREEN \$2,200

Retractable touchscreen head unit that gives you the ability to connect to Apple Carplay & Android Auto.

BILLET INTERIOR APPEARANCE PACKAGE

\$3,500

Give your build the premium touch with classic F-250 parts from Velocity.

INCLUDES

INNER DOOR HANDLE

WINDOW CRANKS

DOORLOCK PULLS

SHIFT KNOBS

HEADLIGHT KNOB

CLIMATE CONTROL KNOBS

UNMATCHED PRODUCTION TIMELINE

At Velocity we provide a known 16-week production timeline along with a set price for your Velocity Signature Series classic F-250. With all work completed in house, we can provide a vastly different experience compared to an average restoration with long lead times and hidden costs.

The production process is broken into one week segments that correspond to a specific portion of the restoration. Dedicated technicians in each step ensure weekly completion and greater quality control. Combined with a rich inventory and our ability to complete all stages of production in-house, we control the timelines and completion dates of our vehicle builds like no one else.

DRAW SCHEDULE

Your Customer Success Team member will work with you to establish a draw schedule. The draw schedule can consist of up to four payments.

- ▲ Contract & \$25,000 Deposit
Guarantees production slot
- ▲ Stage 1
Due prior to production start
**Paint color must be confirmed*
- ▲ Stage 2
Due prior to entering station 5
Electrical & Chassis
- ▲ Final \$25,000 Draw
Due prior to entering station 8
Test & Tune

PRODUCTION LINE

The customer experience provided by Velocity is truly second to none. We want you to be as involved in the process as you would like to be.

During the 16-week build timeline, a member of our Customer Success Team will work alongside you to ensure that you have the best experience possible. This includes regular updates sent directly to you from the production line throughout each station of the build process.

DEALER PAPERWORK AND SHIPPING

Once the final draw payment is made we will begin all of the final paperwork. Your dedicated Customer Success Team member will guide you through the process every step of the way.

Once the F-250 is finished and the final paperwork is completed, your Customer Success Team member works with you to coordinate shipping and delivery. We work with you and for you making sure that your new vehicle arrives safely and swiftly.

ST1

BODY MOCKUP

Each vehicle starts as a bare original F-250 body that is corrected to match our standards. The body is then set on top of the frame to "mockup" the vehicle.

ST2

EXHAUST & ROLL CAGE

A custom exhaust system is also crafted to ensure your vehicle sounds as good as it looks.

ST3

BODY PREP

Your vehicle body is then stripped to bare metal and our body shop technicians correct and refine all panel gaps. Final sanding and bodywork preparation is done before painting.

ST5B

CHASSIS

All-new drivetrain components are assembled and mounted to the chassis before the painted body is lowered and mounted.

ST6

MECHANICAL

Our technicians connect all electrical and mechanical parts of the vehicle. Your vehicle's beating heart, the 5.0L Coyote V8 engine, is fired up for the first time.

ST4

PAINT

Custom Glasurit paint is sprayed on the body tub and panels of your vehicle. Velocity utilizes two down-draft paint booths in our facility to ensure the highest standard of paint.

ST5A

ELECTRICAL

Electrical systems are prepared and installed throughout your vehicle's body. All new wiring is integrated with a modern ECU (Electronic Control Unit) & TCU (Transmission Control Unit).

ST7

ASSEMBLY

All of the body components of your F-250 come together; interior, body panels, roll cage, and bumpers are assembled and aligned.

ST8

TEST & TUNE

Our process consists of 500+ miles driven and a custom tune on our in-house dyno to ensure an unparalleled driving experience.

ST9

QC

Our classic vehicle experts diligently and thoroughly inspect each Blazer ensuring our top of the industry standards are met.
